- & much more...

### CREATIVE TEAM BUILDING SOLUTIONS

#### Initiative Challenges - Designed to be Fun!

**My goal is to get everyone involved in the team building experience.**

I came up with the **Initiative Challenge** which I can do anywhere, indoors or outdoors. All I need is enough room so that groups can move around and complete the challenges I present to them. Being able to do the programs indoors allows groups to be comfortable so they can concentrate on the issues they need to do to accomplish and be successful while completing the challenge. Plus, there are no cancellations because of weather. This is a very important factor for groups that have a limited amount of time and are unable to reschedule for another program. Being able to do the programs indoors allows me to conduct the initiative challenge anywhere! Therefore I can come to you and do a program in a location that is more convenient for your group, and that in itself can save you money when you don't have to transport everyone to a faraway location. **The Adventures in Team Building Initiative Challenge gets everyone involved... making them better team members.** -Greg
